[AdityaBhandare](#)

### SUMMARY

Full-stack developer and B.Tech IT student with strong problem-solving skills, real-world project experience, and a proven academic track record. Experienced in building scalable web applications, backend systems, and ML-powered platforms. IBM Certified in Full Stack and DevOps.

### SKILLS

- ❖ **Programming Languages:**  
Java, Python, JavaScript
- ❖ **Web & Backend:**  
React, Node.js, Express, REST APIs, JWT Authentication
- ❖ **Databases:**  
MongoDB, PostgreSQL, MySQL
- ❖ **DevOps & Tools:**  
Docker, Git, GitHub, CI/CD, Linux, Render, HuggingFace
- ❖ **ML / AI:**  
Transformers, HuggingFace, Model Deployment, Python ML Pipelines
- ❖ **Others:**  
System Design Basics, API Design, Authentication Systems, Docker, Jupyter Notebooks

### CERTIFICATIONS

- ❖ IBM Certified Full Stack Developer
- ❖ IBM Certified DevOps Engineer

### EDUCATION

- ❖ Vishwakarma Institute of Technology, Pune – B.Tech IT | CGPA: 8.73 | 2024 – 2027
- ❖ Puranmal Lahoti Govt. Polytechnic, Latur – Diploma IT | 94.31% | 2021 – 2024
- ❖ Universal Public School, Aurad – Class X | 96.80% | 2021

## EXPERIENCE

- ❖ **Web Development Trainee | Operand Technologies & IT Solutions LLP, Latur**  
(June 2023 – July 2023)
- ❖ **General Secretary, Student Council (2023–2024) – Puranmal Lahoti Polytechnic, Latur**

## ACADEMIC PROJECTS

- ❖ **LearnDev – AI-Powered Learning & Assessment Platform**
  - A full-stack web application for creating structured courses, generating detailed concepts, and evaluating student explanations using machine learning. Features include course and concept management, automated content generation, explanation quality evaluation, progress tracking, and database-driven operations – React, Node.js/Express, Python (ML), MongoDB, Docker, and REST APIs.
- ❖ **Taskify Pro – Real-Time Team-Based Task Management App**
  - Built a full-stack Trello-like web app with real-time collaboration using React, Node.js, MongoDB, and Socket.IO. Implemented features like team and board management, task assignment, role-based permissions, and a real-time activity feed. Ensured secure authentication using JWT and optimized UX with TailwindCSS. Designed for scalability and clean modular structure. Tech Stack: React, Node.js, MongoDB, Express, TailwindCSS, Socket.IO, JWT.
- ❖ **Campus Connect – College Management System**
  - A web-based platform for managing academic and administrative operations like user profiles, attendance, events, notes, and student forums – HTML, CSS, JavaScript, Bootstrap, PHP, MySQL.

## ACHIEVEMENTS / HOBBIES

- Ranked 1st in Diploma in Information Technology (2023–2024), Puranmal Lahoti Polytechnic, Latur.
- Chess enthusiast, amateur boxer, and passionate coder with a love for solving complex problems
